### THE CIRCUS.

When the elephants are marching  
And the band begins to play;  
When the noble pawing chargers  
Prance along the sawdust way;

When the airy fairy ladies  
Through the hoops of paper fit;  
When the clowns begin exchanging  
Their excruciating wit;

When the spangled flying wonder  
Hangs suspended in the air;  
When the mighty roaring lion  
Is confronted in his lair;

Then must I a freckled urchin  
To the circus take with me,  
'Tis the fourth he's witnessed—  
He's the boy I used to be.

### SUCCESSFUL LAWN PARTY.

The lawn party given at 116 East Gregory Saturday evening was quite a success netting a trifling \$29 for the Public School Library.

Much credit is due to the pupils of Grade 5, Sections C—Miss Buda Day teacher—and D—Miss May Burton teacher—and Grade 6, Section C—Miss Josie Roberts teacher—and their teachers for the well managed affair which attracted a large attendance from 5 to 8 o'clock—so large that the excellent cream furnished had to be ordered and reordered several times, as did the contents of the "fish pond," which was emptied several times each in about five minutes, or as fast as the children could "angle" them out.

The B. Y. P. U. had an interesting meeting Sunday evening led by Mr. McKinney, who recently came to Pensacola from Mobile.

"OUNCES" OF PUBLICITY PREVENT POUNDS OF MISFORTUNE.  
NO NAVAL MANEUVERS OFF KEY WEST HARBOR.

The Key West correspondent of the Miami Metropolis says:

"It has at last been discovered why we are not able to secure a naval manuever at Key West. It appears that the channel is full of niggerheads, which are a source of great danger to the vessels. The removal of these obstructions and the clearing of harbor, has been surveyed and it has been learned authentically that about nine million dollars will be expended on its improvement. It remains for Key Westers to stir themselves up and secure this appropriation, because apart from the benefit derived by having the naval manuevers here is it the benefit Key West would receive commercially from such an improvement."

### How To Ward Off Old Age.

This can be done by eating only food suited to your age and occupation, and when any disorder of the stomach appears take a dose of Chamberlain's Stomach and Liver Tablets to correct it. If you have a weak stomach or are troubled with indigestion, you will find these Tablets to be just what you need. For sale by all druggists.

### FIREMAN WHITEHEAD FOUND DEAD IN HIS BED.

Fireman R. H. Whitehead, attached to truck house No. 4, and stationed on West Hill, was found dead Sunday morning in his bed at that place. He had evidently been dead for many hours, as the body was growing cold.

Mr. Whitehead retired early in the night, as he was to go on his regular watch at 4 o'clock Sunday morning, and all of the men at the house presumed that he was asleep. Instead he was dead, having expired without a struggle or noise while the other men were either asleep or on watch. Mr. Whitehead was one of the oldest firemen in the fire service, having been in the department for about twenty years, and was considered a very competent man. He was among the members of the volunteer fire department, and his work during that period reflected credit upon him.

The funeral occurred yesterday afternoon from the family residence, and the interment was attended by a large number of persons, especially among the men of the department, including Chief White. One of the prettiest floral tributes ever seen here was presented by the members of the fire department.

## WRITES OF ST. ANDREWS

WRITER VISITOR RECALLS EXPERIENCES DURING HIS SOJOURN THERE.

(St. Andrews Buoy.)

"J. S. Stiles, the Millard avenue druggist and R. G. Peck of Central Park avenue, with their families, returned Saturday from St. Andrews Bay, Fla., where they have spent the winter. This is the celebrated winter resort discovered by John D. Coffman, who is gradually increasing the Chicago Colony there."

Editor St. Andrews Buoy: I enclose a clipping from a Chicago paper, I think may prove of interest to you, as it chronicles the safe arrival home of the families of some of your winter friends and gives J. D. Coffman, the credit of being St. Andrews' friend and promoter, all of which he is entitled to.

Our journey home was uneventful with the exception, of course, of our voyage on the Tarpon, which was accompanied with but few exceptions with seasickness, for proof of which I enclose Mr. Sturrock, who sailed with us. We remained in Pensacola until the arrival of Mr. Peck and family and after continuing our stay a few days longer, visiting the battle ships, forts and other points of interest we resumed our journey the balance of the way together, arriving at home Saturday, April 15th, finding a cold, raw atmosphere, with snow falling, and the weather has continued to be anything but pleasant up to the present time.

We miss the St. Andrews sunshine, her delightful climate and wish we could have brought it with us. We miss that beautiful body of water, St. Andrews Bay, on which we took many a ride in sailboat and launch, in which we cast many a line for fish that did not bite, notwithstanding the glorious fish stories told by the natives, such as catching 33 trout in 30 minutes from the time they left the house, which was half a mile from the scene of action; or, finding a trout which was gobbled up by a redfish and that by a shark before it, (the trout) was landed, and I am not sure but that a pelican got the whole bunch in spite of the fisherman's attempt to save them for his own use. Our fishing was done mostly in company with Col. Doty, but such stories were not told by him. Inquire of the Surber boys, Capt. Willis, Charlie Brackin, Bert Ware, et al. They each can cite you stories that will greatly excel the above and without much effort required either.

We miss our evening journey to the postoffice with its postmistress, Mrs. Ware, and her proficient assistant, Miss Stiles, who always had a smile for us; we miss the people who gathered there while waiting for their mail, swapping stories and jackknives—stories of how the town was at one time loaded down with bear meat, that was killed by one of your prominent citizens; the productive qualities of the velvet bean; the man who shot deer from the Presbyterian church door steps, etc., etc.—evening something new. Oh! how we miss them! The fish we do not miss, as we had but few. The game that is located on the map we do not miss for the same reason.

But we do miss, and would that we could see them now and shake their hands, the citizens of St. Andrews, who each and all did all they could to make our stay with them very pleasant, indeed. To our friends in the West End of town, where we were located, we have a special remembrance. To the Rocksteads, Brackins, Col. Doty, Lieut. Col. Sheppard, Capt. Willis, Mr. Brake and others, are we especially indebted, and we have a warm spot in our hearts for them. Wishing you, Mr. Editor, and St. Andrews all the success possible, I am,

Yours for service,  
J. S. STILES.

The Buoy fears that the reason our esteemed visitor was not a successful fisherman was that our experts in that capacity withheld from him the secret of the bait they used. Why, the editor of this paper has himself seen a single person come off the wharf in front of the Buoy office with more than double the number of fish claimed by his informant in less than half the time he took.

### DOING THEIR DUTY

Scores of Pensacola Readers are Learning the Duty of the Kidneys.

To filter the blood is the kidneys' duty. When they fail to do this the kidneys are sick. Backache and many kidney ills follow.

Urinary trouble, diabetes, Doan's kidney pills cure them all. Pensacola people endorse our claim. Charles Wilson, living on West Romana street, brick mason by trade, says: "I procured Doan's Kidney Pills at Sidney Kahn's drug store, No. 9 South Palafox street, and used them for a lame back and sharp twinges of pain which passed through me when I stood or made any sudden movement. I was surprised at the quickness with which I was relieved. Mrs. Wilson also suffered from her back and kidneys. She could hardly turn in bed and suffered from a dull aching pain in her loins. Just before taking Doan's Kidney Pills she was completely laid up. After taking a course of the treatment all symptoms of kidney trouble left her, and up to date there has been no recurrence. I strongly urge Pensacola people to use Doan's Kidney Pills if they suffer from their back or kidneys."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

## SCROFULA A Disease We Inherit

The tainted blood of ancestors lays upon the shoulders of innocent offspring untold suffering by transmitting to them, through the blood, that blighting disease, Scrofula; for in nearly every instance the disease can be traced to some family blood trouble, or blood-kin marriage which is contrary to the laws of nature. Swelling, ulcerating glands of the neck, catarrh, weak eyes, sores, abscesses,

Scrofula appeared on the head of my little grandchild when only 18 months old, and spread rapidly over her body. The disease next attacked the eyes and we feared she would lose her sight. It was then that we decided to try S. S. S. That medicine at once made a speedy and complete cure. She is now a young lady, and has never had a sign of the disease to return. 150 S. 5th St., Salina, Kan. MRS. R. BERRY.

Scrofula is a disease which has been in the blood pollutes and weakens that health-sustaining fluid and in place of its nutritive qualities fills the circulation with scrofulous matter and tubercular deposits, often resulting in consumption. A disease which has been in the family blood for generations, perhaps, or at least since the birth of the sufferer, requires constitutional treatment. S. S. S. is the remedy best fitted for this. It cleanses the blood of all scrofulous and tubercular poisons, makes it rich and pure and under the tonic effects of this great blood medicine the general health improves, the symptoms all pass away, there is a sure return to health, the disease is cured permanently while posterity is protected. Book on the blood and any advice wished, furnished by our physicians, without charge.
